

# LIFE FITNESS POWERMILL CLIMBER

## SMOOTH STEPS, BIG CHALLENGE

The smooth motion, large surface area on each step and wide range of speeds make the Life Fitness PowerMill Climber an inviting, but challenging, option for any exerciser.

### SURESTEP SYSTEM TECHNOLOGY

An AC motor provides an extremely wide range of speeds. From 12 - 185 steps per minute, the motor offers options to all exercisers, whether they're engaging in reconditioning or HIIT workouts.

### SMALL FOOTPRINT

The PowerMill Climber has an inviting design and one of the smallest footprints among similar products in the industry.

### SPACE AND STABILITY

MaxBlox™ steps have the largest usable space in the fitness industry and an anti toe-pinch design for secure footing at any speed.

### CONNECTED CARDIO

Life Fitness cardio can be connected to LFconnect for asset management, facility usage data, preventive maintenance, LFconnect Protect and more, so you get the most out of your equipment.
